

THE WORLD OVER

ABANDON CERTIFICATE PLAN

EDMONTON—The Alberta government's Prosperity Certificate plan, launched in August, 1936, has been abandoned, Provincial Treasurer Solon Low announced.

Outstanding certificates total approximately \$12,000 and it is expected that they will be redeemed within the next two weeks. Planned for financing a highway construction program \$50,000 worth of certificates were printed but only \$20,000 actually issued.

CORONATION GIFTS TO JOBLESS

ADELAIDE, Australia—Every unemployed married man will receive a cash grant of 10 shillings and every single man a cash grant of five shillings from the South Australia state government in celebration of the coronation.

BRITAIN NOT TO RETAIN GOLD

LONDON—The government will refrain from maintaining a fixed price for gold in terms of the pound sterling. Neville Chamberlain, Chancellor of the Exchequer, told the House of Commons this week.

"The price of gold is one of the factors to be taken into account in determining monetary policy from time to time," Chamberlain said. "The government is fully alive to the undesirability of interfering with the flow of business toward recovery."

SASK, MAN COMPLETES SEEDING

WHITEWOOD, Sask.—J. Skinner, farming one mile out, has completed seeding the whole of his wheat acreage and claims to be the first in the province to do so this year. Many farmers of this district have considerable acreage seeded and by the end of the week most of them will have completed wheat seeding. Top soil is fairly good and subsoil moisture is lacking and rain will be needed.

RAILWAYS LOOK TO WEST

For four successive years the western wheat crop has been below average and the railways have suffered accordingly. It is estimated that 50 per cent of the Canadian Pacific Railway's freight revenues normally come from Western Canada, and principally from the movement of grain. In 1936 the grain inspections of C.P.R. lines were 150 million bushels, while in 1928 the figure was 270 million bushels. In 1928 the company's earnings were close to \$40 million. In 1936 that income was slightly over \$6 million.

First Girl: I'm sure there is a man following us.
Second Girl: Gosh! What shall we do?

First Girl: Let's watch for him.

Policeman (to injured pedestrian): "You say he didn't blow his horn? Are you a married man?"
Pedestrian: "No, sir; this is the worst thing that ever happened to me."

W. G. MATHERS HEADS BASEBALL CLUB FOR THE COMING SEASON

Will Raise Funds by Public Subscription This Year

At an enthusiastic meeting of baseball fans, held in the Municipal Office on Friday night, April 9th, the following officers were elected for the coming season:
President, W. G. Mathers.
Secretary, Richard Appleyard.
Treasurer, Percy Edwards.
Manager, Hugh Brown.
Coach, G. H. Disher.
Ground Committee, Otto Schiele and Gordon Murray.

The books showed an amount of \$17.65 on hand from last year, and it was decided to raise funds by a public subscription. Messrs. Nash and Gimbel being appointed to do the collecting.

The executive was given power to continue the dance committee and put on a dance at a date deemed advisable to them.

Some new equipment will be needed this year and it is to be hoped that funds will be available from the subscription to take care of it.

Any business man in town will be approached later by a player with a view of getting them to donate one baseball suit for the team. Certain advertising concessions will be given the merchant for this donation.

With the warm weather approaching the baseball season will soon get under way and it is hoped that Carbon will have a fair team this year. Practice nights will soon be set and many players in the district who feel that he is capable of making the team is asked to turn out to these practices.

FAMOUS LAST WORDS

As a matter of fact I drive better when I've had a couple.
No one ever makes ME drive my headlights.

Having gained—I can see him in the mirror.
It's all right—she's not in gear. At last, darling.

You really must look at that sunset.
If you brake carefully, worn tires don't matter a bit.

Every inch of this road.
Look, here's the thousand just coming up.

Stakes, I can light my own—the car steers itself.
Quick, that's our corner.

I've ridden locks for years and never had a light.
I love the early morning—the roads are so empty.

Anyway, the hand-brake's all right. I think.
She's about due for an overhaul now.

ALL KINDS OF WEATHER AND ALL IN THE SAME DAY

It looked as if old mother nature was trying to give us a sample of the various kinds of weather that it to be had this coming summer. Tuesday the day dawned bright and warm with high temperatures. About eleven o'clock in the morning a high wind sprang up. At noon a terrible dust storm passed over the town, enveloping the district in darkness and leaving a film of dust on everything. Later in the afternoon a thunder storm passed bringing a little rain. This turned to hail about four o'clock and by six o'clock the sun was shining and the wind had died down bringing comfort.

ALBERTA DOES NOT NEED AID

OTTAWA—Alberta does not require temporary financial assistance from the Dominion pending the findings of the royal commission on taxation, the federal government was advised last week in a report from the Bank of Canada, tabled in the House of Commons by Finance Minister Charles Dunning.

The bank found that "Alberta can maintain its government services on as favourable a basis as Manitoba or Saskatchewan without receipt of additional assistance and was therefore seen no reason for recommending that temporary financial aid should be extended by the Dominion government."

LONG YEARS AGO

April 17, 1924

During the months of May, June, July and August the local merchants will take a half-holiday every Wednesday afternoon.

The Hesketh branch of the Women's Institute was organized last Saturday at the Beveridge Lake school. The following ladies received various appointments: Mrs. Surfor, Mrs. Saunders, Mrs. V. Castiglione, Mrs. Walker, Mrs. Chittick, Mrs. H. Irwin, Mrs. Burns, Mrs. Brown and Mrs. Cleaver.

A. Walker recently returned from a visit to Scotland.

Len Hay is the owner of a new Chevrolet car.

S. J. Garrett has been appointed agent for Chevrolet cars and has a new touring model on display.

Our Farm News Letter

Contributed by B. Leslie Emslie, C.D.A. (Glas.) F.C.S.

Fertilizer Boosts Growth of Barley

In a progress report for the years 1931 to 1935 issued recently by Dr. E.S. Hopkins, Dominion Field Husbandman, Central Experimental Farm, Ottawa, there is much information of practical value for the farmer, concerning crop rotations, cultural practices, soil fertility investigations, pasture investigations, weed eradication and cost of producing crops.

One item of special interest pertains to methods of applying fertilizers for grain and gives the results obtained with barley, these being averaged for the period of six years (1929-1935) during which the trials were carried out. Similar results were obtained on wheat and oats.

The data furnished are proof of the greater efficiency of fertilizers drilled in with the seed than when sown broadcast. The average yield of barley from the unfertilized control plot was 40 bushels per acre; from the fertilizer broadcast 43 bushels; from fertilizer drilled with the seed 54 bushels; and from fertilizer placed in the row one inch below the seed 57.5 bushels.

Some farmers of Eastern Ontario have announced their intention of fertilizing and seeding for grain in two operations using the ordinary grain drill for both purposes having under a combination grain and fertilizer drill. Their intention is to apply the fertilizer first at a depth below that at which the seed will subsequently be sown. It is possible that the method may prove even more advantageous than that of drilling the fertilizer with the seed, judging by the further increase of 3.7 bushels per acre obtained in the experiments by Dr. Hopkins.

These enterprising farmers were advised to take the necessary precaution to clean out the seed box of the drill thoroughly after use with the fertilizer. Eventually, no doubt, combine grain and fertilizer drills will be so adjusted as to permit the placement of the fertilizer an inch below the seed of grain and other crops.

It's a Mistake to Dig Deeply

Some farmers and gardeners seem to think that in ploughing or digging the soil the deeper they go the better. That this is a mistaken belief will be apparent if they pause to reflect that the surface soil contains most of the available fertility and the favourable bacteria which effect the liberation of plant food substances for assimilation by growing plants.

Ploughing or digging too deeply, especially in a medium in which they operate, at depth where the air and the warmth they need is lacking. Stirring the subsoil, to remove hardpan and promote aeration and circulation of moisture in root practices, but the subsoil should not be brought to the surface, especially if it is heavy clay.

BOY SCOUT NEWS NOTES

BY THE S. M.

TO PARENTS

Will all parents of Scouts and Cubs who possibly can, attend a Scout and Cub Social in their club room (basement of Christ Church) on Saturday, April 17th, at 7:45 p.m. Also, will some of the mothers (or fathers) be so kind as to bring a few sandwiches or a cake? Tea will be provided.

To relieve any doubts, there will be no charge or collection.

The 17th of April marks the first anniversary of the Troop, and a review of the year's progress will be given. There will also be a demonstration of what happens during a Scout meeting, followed by games and possibly some community songs provided your voice box is in running condition.

It is important that you do your best to turn up, at least for the first part of the programme. Please try.

H. M. ISAAC.

A dance will be held in the Hesketh Community hall on Friday night, April 16th. White Tux Orchestra will be the music. Everybody welcome. Come and have a good time.

THE PEOPLE'S LEAGUE

The People's League of Alberta is an organization of individuals representing all walks of life and all parts of the province. The League has come to merge political differences for the sake of rational thinking on matters of public interest. The League does not propose to enter directly into politics, except as a last resort. It hopes to have all persons believing in a reasonable approach to the business of government, whether they be Liberal, Conservative, C.A. or Social Credit, unite in this constituency to sponsor the best man available as an "independent" candidate.

CAPT. H. G. SCOTT TO TRAVEL FOR PEOPLE'S LEAGUE

Captain H. G. Scott, former City postmaster at Calgary, will return to Alberta within the next two weeks to take up his duties as travelling secretary for the People's League of Alberta.

Captain Scott, resident at North Pender Island, B.C., since he left Calgary, has accepted the invitation of the executive to act for the League.

SEEDING GETS UNDER WAY IN THE DISTRICT

Monday of this week saw many of the farmers on the land seeding wheat and doing other farm operations. The soil is said to be in fair condition and with favorable weather seeding will be fairly general in this district by the beginning of next week.

"Can any of you boys?" he said, "tell me anything of importance which did not exist fifty years ago?" "No," exclaimed one of them.

The teacher had been giving a lesson on modern inventions to his class.

At the estimated expenditure of the M.V. Carlen for the year 1937 was \$30,019.12 and with the total assessed value of \$1,500,000, the rate placed at \$2.128.500.00, and it was estimated that the sum of \$30,019.12 will be raised from sources other than current levy. It was decided by the council that the sum of \$20,019.12 be levied, and the mill rate was set at 84 mills on the dollar of assessed valuation. This is the same as it was last year.

PRICE OF BRITISH BREAD

The price of British bread has risen rapidly during the past few months and is now at the highest level since 1918. A four pound loaf costs 19c. London flour millers have made six successive increases in the price of the standard grade of flour in twenty-two days and the current price for 25 lb. sacks is \$1.50 higher than the price a month ago. There are signs of dissatisfaction at the rapid increase in price and some newspapers are accusing the speculative element in the grain trade of forcing the market to undue heights.

The regulations of the various rural school districts within the municipality were reviewed and the following rates were levied:

Arbuckle, 11; Axtell, 6; Beaverbridge, 4; Beaton, 5; Barwood, 2; Churchill, 9; East View, 6; Gamble, 5; Gumbo, 5; Garrett, 5; Humbolt, 5; Kern, 4; Kirby, 9; Level Land, 6; Lemos, 4; Mount Vernon, 4; Mosher, 6; Marns, 5; Orkney, 6; Roseview, 5; Roschal Heights, 5; Robson Lake, 5; Webb, 5.

Numerous cases of relief, etc., and the passing of accounts for payment, concluded the business of the meeting.

WEEKLY COMMENT ON THE WORLD OF WHEAT BY H. G. L. STRANGE

A perfect wheat is hardly needed by the farmers in the vast areas of Western Canada.

The raw area comprises the whole of Manitoba, and as well Saskatchewan east of a vertical line running through Shellbrook, Saskatoon and Moose Jaw.

For many years the wheat plant breeders in the United States, Canada, and in other countries, have been endeavoring to produce a suitable rust-resistant wheat. Several varieties have now been licensed for use in Canada, and other varieties are still under test.

Thatcher is the most widely distributed rust-resistant variety at present. It is a few days earlier than Marquis, somewhat higher yielding, and is rust-resistant to a high degree. Thatcher has about the same milling quality as Marquis. It has as well good strength of straw.

The defects of Thatcher are that the kernels are not of such a good shape as the Marquis berry, and as well they have rather a dull color, and the grain breaks on the surface, about one-fifth of a grade less than Marquis.

Other licensed rust-resistant wheats are Remona (a product of the Dominion Trust Research Laboratory, Winnipeg) and Apex, (developed by the University of Saskatchewan).

Following factors have tended to raise prices:

Broadly consumptive demand for wheat in Continental Europe, Spain purchases Argentine wheat, India and half imports may lower the yield and quality of Indian crops. Wet weather delays spring work in Europe. Poland prohibits grain exports. First Argentine crop estimate 20 million bushels, below 1936.

Following factors have tended to lower prices:

Broadly raised in Argentina and Great Britain. Record South African crop. Indian wheat crop estimate, about 375 million bushels. Remona demand for Iran and Karoon barge in Holland. Germany purchases Turkish flour. Favorable new crop prospects in U.S.

COUNCIL OF MUNICIPAL DISTRICT OF CARBON SETS 6 1/2 MILL RATE

Rate Same as Last Year; No New Assessment This Year

The regular monthly meeting of the council of the Municipal District of Carbon was held in the hall, Carbon, on Tuesday, April 6th, 1937. Councillors C.R. Guym, J.A. Odlund, H.H. Crowell and Harold Orlund present. Regarding the triennial assessment which has been postponed this year by the provincial legislature, the council agreed that it would not undertake a new assessment this year, but that the secretary-treasurer be appointed assessor as required under the Act.

A number of applications for seed grain relief were reviewed by the Council and it was agreed that the secretary-treasurer be authorized to complete the approval of those applications in all cases where no bona fide dispute exists. In cases where other cases the applications be referred to the councillor of the district where the applicant resides.

At the estimated expenditure of the M.V. Carlen for the year 1937 was \$30,019.12 and with the total assessed value of \$1,500,000, the rate placed at \$2.128.500.00, and it was estimated that the sum of \$30,019.12 will be raised from sources other than current levy. It was decided by the council that the sum of \$20,019.12 be levied, and the mill rate was set at 84 mills on the dollar of assessed valuation. This is the same as it was last year.

The regulations of the various rural school districts within the municipality were reviewed and the following rates were levied:

The Community Newspaper

Few people appreciate in anything like full measure the tremendous influence for good exerted by the country weekly newspapers of the western provinces in the communities they serve and the quality of the service rendered by the proprietors and editors of these weekly symphonies of world, national and local current events.

Whether realized or not, however, the fact remains and can be truthfully established that the well-edited and discriminatingly edited country weekly and that measure the great majority of these faults an extremely important function in the town and rural district in which it circulates. Nothing else that the subscriber purchases can be brought to yield such value for such a small nominal consideration.

And not only in quantity of material does the subscriber receive great value for an almost infinitesimal outlay but the quality of the merchandise offered to the purchaser of the paper is an unparalleled tribute to the discernment, ability and integrity of the proprietor who shapes its course and determines its policies.

An analysis of the contents of the average issue of the mid-run of country weeklies in the west demonstrates that considerable discernment is exercised in the selection of the news presented to their readers, that high moral plane dictates the selection that is made and that service to the community of a high order is invariably maintained throughout their columns whether devoted to world events or to small local occurrences.

Partly because of this all-pervading tone permeating from the first paragraph to the last and partly because in many homes the local weekly is the sole printed purveyor of current topics no literature is more consistently and carefully read or with such close scrutiny, including the advertisements, than the country weekly newspaper.

Another factor which commends the country weekly to its readers and subscribers is the extraordinary thoroughness and care with which it is approaching the problems of the day, whether they be political, social, religious or economic. Their attentions invariably result a breath of vision and spirit of tolerance to a world gone mad and at a time when too many turn aside to follow false gods or pursue apocryphal theories and "isms".

Then, too, much of the extraordinary influence exerted by the country weekly upon its readers should be attributed to the liberal space devoted to plans which have as their objective some phase of community betterment or improvement of the town and district. In this respect owners and editors give much of their time and energy to worthy causes for which there is no recompense other than the satisfaction which comes from having assisted in the promotion of a beneficial project.

Altogether the country weekly newspaper is a valuable institution daily which is "sufficient unto the day" for its clientele, the country weekly paper may appear comparatively insignificant, but the latter is picked up, read and re-read and its entire contents of news, editorial content and advertising is digested and re-digested for a week until the succeeding issue steps into the breach. And it is largely because of this assiduous and intensive study and reflection which the weekly newspaper inspires that it wields such an important influence on its readers.

The country weekly also can be counted upon for loyalty to its readers, subscribers and advertisers, for faithful print in the town and district which it serves and for a steady support in town and out of town. It is the reason for the local business, the local sports, the local organizations, the local churches and the people of the district, for the local paper is a cooperative enterprise, even though privately owned.

Without the security of a sound and country newspaper, any community is bound to suffer and many worthy local ventures would languish and with of maintenance and without the wholehearted support of the many individuals which make up the community a local paper would lapse into a decline and eventually inherit a lamentable grave.

The fact that the great majority of the country weeklies have survived the appalling test of a depression of unprecedented length and excessive severity and the casualties have been surprisingly few, speaks volumes for the high regard in which they are held, perhaps often unconsciously, by the people they have served, and are serving so well and so tenaciously despite great handicaps.

Public Too Curious

People Harried From Parts of Wind-
swept Great Park.

The decision, reluctantly arrived at, to close to the public parts of Windsor Great Park for the Royal Lodge to receive privacy for the King and Queen is a lesson to people who have been induced by their curiosity, comments a writer in the London Daily Sketch. The ruling may be relaxed later, it is hoped, to prove. The King and Queen like to regard Royal Lodge and the Great Park as a part of their private lives.

For years there has been a standing record of \$1,000 for one pound of manufactured combidity.

A bad has the remarkable power to reproduce every part of a tree: stem, foliage, branches and fruit.

HOW'S YOUR STOMACH?

YOU lose weight if you have indigestion. You lose strength if you have indigestion. You lose energy if you have indigestion. You lose sleep if you have indigestion. You lose health if you have indigestion. You lose life if you have indigestion.

Indigestion is a common ailment. It is caused by a weak stomach. It is caused by a poor diet. It is caused by a lack of exercise. It is caused by a lack of sleep. It is caused by a lack of health.

Preservation Of Liberty

American Friendship Best
Guarantee Of World Peace

Under the heading "hang together or hang alone," an editorial in the New York Daily News endorsed that part of Lord Tweedmouth's recent speech at the United States naval academy in which the governor-general of Canada said:

"The American and British navies are united in the same purpose—the preservation of liberty and peace." The News forecast difficulties if an attempt were made to put a formal naval and military alliance between Britain and the United States through parliament or congress.

"We would hardly like to see ourselves up in an agreement to help Britain fight Italy or Russia," it argued, "Britain wouldn't like to be tied up to us for some conceivable South American or Mexican war."

"But for the two of us to keep our informal friendship unflinchingly warm is common sense—as long as we maintain the world's two most powerful navies, any nation will prefer a long time before picking a fight with either Britain or ourselves."

"The editorial added that American-British friendship is not only natural, but is also, as Lord Tweedmouth says, the best guarantee of both nations' safety and the best insurance against another world war."

Mahatma Gandhi

Reported To Be Leading The Life Of A Typical Village

Mahatma Gandhi is leading the life of a typical village.

He has taken permanent residence in a hut on the edge of the village of Shweta, seven miles from Wardha (Central Province). His wife and secretary live at the same place. The latter goes daily to his master's room to read the papers and to receive his orders.

Nearly a hundred huts, some of which are made of mud and some of which are made of brick, are scattered about the village. Gandhi's home, which is a hut built of mud, has an airy hall in the center which serves as his study. A kitchen, storeroom and bath complete the home. At the side is a small stable for goats.

Gandhi has no program for the future these days aside from his daily schedule. The villagers attend his open-air prayers at dawn and dusk.

Received Lloyd's Gold Medal

Admiral Evans Holds Rare Award For Gallantry At Sea

Admiral Sir E. H. G. B. Evans, who delivered his address as Lord Rector of Aberdeen University the other day, is the only man to have received one of Lloyd's gold medals for special gallantry at sea. He won it on the occasion of the Hong Kong disaster in 1914 when he was in command of the HMS "Hood" and saved the lives of many of the crew and passengers of the ship. He was also awarded the Victoria Cross for his gallantry in the same disaster.

Should Be Discouraged

British Royalty Thinks Official Pressures Impose Needless Burdens

King George Intimate to Foreign Governments through official channels that he did not wish gifts on his coronation.

This follows the precedent set by his father, George V., who said shortly before the last coronation that outlays for lavish official presents were needless burdens on others and should be discouraged.

Despite this precedent the British royal family and government still accept those from personal friends. Gifts from foreign rulers on state occasions.

Plants so shaded that they receive one one-hundredth of normal daylight grow little better than plants in total darkness.

HOW TO OVERCOME ITCHING PILES

If you are annoyed with itching piles, do not let it continue. Do not let it become a habit. Do not let it become a nuisance. Do not let it become a disease. Do not let it become a curse. Do not let it become a punishment. Do not let it become a curse. Do not let it become a punishment.

SELECTED RECIPES

CRISP COOKIES

Temperature: 400 degrees F.
Time: 10 minutes.
2 squares unweetened chocolate
1 cup shortening
3 cups sugar
3 cups "Crown Brand" Corn Syrup
2 eggs, unbeaten
1 cup flour
1 cup baking powder
1 teaspoon vanilla
1 cup finely chopped nuts
Method: Melt the chocolate in a double boiler. Remove from heat and add the shortening, sugar, syrup and eggs. Beat well. Add the flour, baking powder and nuts. Mix thoroughly. Spread the mixture on a baking sheet. Bake for 10 minutes. Spread the mixture on a baking sheet. Bake for 10 minutes. Spread the mixture on a baking sheet. Bake for 10 minutes.

Use Of Serums

Taken From Persons Recovering From Infantile Paralysis Found Effective

The use of serum from persons recovering from infantile paralysis to treat other victims proved effective in checking an epidemic in Manitoba, Dr. P. W. Jackson, deputy minister of public health for Manitoba, told the conference of state and provincial health officers.

"Altogether 529 cases were reported, of which 33 died and of the remainder only 99 had paralysis after the disease subsided. Six or seven only will be totally disabled," he said.

The Final Stop

You need 40 feet to stop your car at 20 miles an hour; 73 feet at 30 miles and 115 feet at 40 miles. At 50 miles you will need 166 feet—and if you keep on climbing to speed eventually you will need only "five or six feet"—depending upon your height. Moreover, then you will be stopped for good.

"In ink so very expensive, father?" "No, dear, what makes you think so?"

"Well, mother seems quite disturbed because I spilled some on the hall carpet."

If each community used its own local sun time, a traveler going east or west would need to change his watch one minute every 13 miles.

A lightning flash lasts approximately one-millionth part of a second.

Russia expects to increase its oil production 18 per cent this year.

A Seedless Pear

Fruit On Ohio Farm Is Also Practically Coreless

A new seedling pear, seedless and practically coreless, has been found growing on a Columbiana County, Ohio, farm. It resembles the Bartlett and compares favorably with that standard variety, ripening about ten days earlier. The tree promises to be vigorous and productive, and while it has not yet been widely tested, it seems to have promise, especially for canning. For several years the fruits have averaged about 90 per cent seedless.

Bicycles caused practically the same number of fatal accidents as privately owned automobiles in Great Britain in the last year.

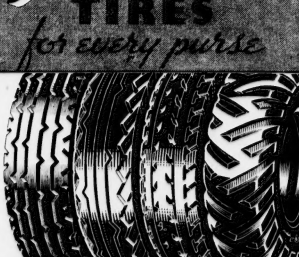

To Mend Broken China

Mixture Of Inglesan And Vinegar Makes Excellent Fixative

An excellent china fixative can be made with inglesan which must be broken up into small pieces and placed in a small cup or egg cup, with a few drops of vinegar. The mixture should be of a syrupy consistency. Use a small brush and paint the mixture on the previously cleaned edges, then press them tightly together. If possible, a thin rubber band will often be useful in keeping an article in position until the mixture has hardened sufficiently to hold.

The International Date Line, where each new day begins, has never been drawn by legal agreement.

THE CHRONICLE

TOWN & COUNTY
PersonalographsL. Guttman returned to Carbon last
Friday from Calgary following a re-
cent operation.The daughter born on Monday to
Mr. and Mrs. H.L. Laughlin, passed
away on Tuesday morning, having
lived just twenty-five hours.Rev. McDonnald motored to Cal-
gary on Tuesday, taking in Mrs. Alex
Heid Sr. to see her husband, who is
ill in a Calgary hospital.Mrs. Tighe and son of Didsbury
spent the week end with the former's
sister, Mrs. Elliott.Miss Caroline Wright was a Cal-
gary visitor last Thursday.F.J. Bessant, Rev. W.H. McDonnald,
Norman Nash, J. C. Spencer and G.H.
Piquette took in the hockey game in
Calgary on Monday night between the
North Battleford Beavers and the
Sault Ste. Marie Rapids. The game
was a 7-5, and prolonged the se-
ries.Mr. and Mrs. Jas. Flaws were Cal-
gary visitors last Thursday.Mrs. W.H. McDonnald spent a few
days last week visiting with friends
in Drumheller.Mr. W. Brooks and Mrs. C. Green
of Calgary motored out last Thursday
and took their mother, Mrs. Brooks,
back to Calgary. She has been the
guest of Mrs. Elliott for the past few
weeks.Phillip Zeiler is in the Drumheller
hospital suffering from a broken leg,
and a number of his relatives visited
him on Sunday.Mr. and Mrs. W.E. Watkins arrived
Sunday from Chemung and spent a
few days at the home of Mr. and
Mrs. A.P. McKibbin. They re-
turned to the southern town on Tues-
day, taking back Brian McKibbin with
them.The Lady Robert's Chapter I.O.O.F.
will hold a Convention tea on Satur-
day afternoon, May 9th, from 3 to 6
o'clock, in the old bank building.Miss Ellen Trumbley spent the
first of the week in Drumheller and
visited with her father, Charlie Trum-
bley, who is a patient in the Drum-
heller hospital.Petitions circulated last week in the
town and district recommending to
the postal authorities that Mrs. El-
liott be appointed to the position of
postmistress in Carbon following the
death of her husband. With hundreds
of names on the petition it appears
that Mrs. Elliott is the unanimous
choice of the people of this district
for her postmistress.

CARD OF THANKS

I wish to thank all friends who so
kindly visited me while a patient in
the hospital, as well as those who
sent flowers.

L. GUTTMAN

YOU CANNOT produce busi-
ness as the magician produces
rabbits from a hat. It takes
something more than magic
to keep the wheels of industry
turning today. The surest
method is by constantly tell-
ing people what goods or ser-
vices you sell and why they
should buy them. Good
printing plays an important
part. Let us help you in both
planning and execution.

Snicklefritz----

The maiden aunt was striving to
amuse her small and very bored
nephew. "Would you like me to tell
you a fairy tale, Freddy?" she asked.
"All right, go ahead," replied her
little nephew, indifferently. "Then I'll
tell you one about Mae West."Mary had a little calf,
And twas as white as snow,
She snuggled her nose and wherever
she goes
The calf is sure to show."Here's a ticket for the conjurist
show, Maggie."
"Thank ye, Donald," said his wife.
"And hark ye, Maggie, when he
comes to that trick where he takes
a teaspoon o' flour and one egg and
mak's twenty sam'l'ettes, watch vera
close."Blond Waitress: "I have stewed
kidneys, boiled tongue, fried liver and
pig's feet."Hard Executive: "Don't tell your
troubles, sister, give me a chicken
pie."Diner: "Bring me ham, two eggs
and coffee."
Second Diner: "Bring me the same,
but eliminate the eggs."Waiter (five minutes later): "I'm
sorry, sir, but our limitator's out of
order. Will you have your eggs boil-
ed?"She: "Oh, I adore that funny step.
Where did you pick it up?"He: "Funny step? Shucks, I'm los-
ing my garter!""Pa, a man's wife is his better half
ain't she?""We are told so, my son."
"Then if a man marries twice there
ain't anything left of him, is there?"The adults of the family were just
about at their wit's end with Willie's
silly. Although about a year old he
still had a keen appetite for slippers,
sweaters, silk hose, and other choice
apparel. Finally father announced at
the breakfast table that if the dog
was not gone before supper time he'd
have to shoot it."Well, the dog's gone," Willie as-
sured his father as they sat down to
the table."Fine," said father. "What happen-
ed to him?""Oh, I traded him," replied Willie.
"I traded him for three puppies."

FROM
THE CARBON CHRONICLE"Somebody
to see you!"IF EVERYBODY with something to interest you
should come and ring your bell, what a nuisance
it would be. Think of the swarming, jostling crowd,
the stamping of feet on your porch and carpet!Every week we know of many callers who come
to see you. They never jangle the bell—they don't
take up your whole day trying to get your attention.
Instead, they do it in a way that is most considerate
of your privacy and your convenience. They adver-
tise in your newspaper!In this way you have only to listen to those you
know at a glance have something that interests you.
They make it short, too, so you can gather quickly
just what you want to know. You can receive and
hear them all without noise or confusion in a very
few minutes.In fairness to yourself look over all the adver-
tisements. The smallest and the largest—you never
can be sure which one will tell something you really
want to know.
